## **AUTO E MOTO D'EPOCA - IT'S ALL ENGINES GO FOR THE CLASSIC CAR FAIR**

*From 22nd to 25th October, the Classic Car Fair in Padua promises an all-encompassing experience: from important anniversaries to a special focus on the Italian brands which once signalled the rebirth and financial boom of this industry.*

Auto e Moto d'Epoca 2020 **is starting to take shape**. From 22nd to 25th October 2020, the Classic car world is gathering in Padua for the key event of the Italian car-manufacturing industry and one of the most important events of its kind in Europe.

In addition to the huge specialised dealer market and the participation of the Clubs, the 2020 edition will also be enriched by an **original** analysis of one of the most important and least known chapters of the history of the car industry: post-war artisan Italian brands, that is to say entrepreneurial companies which **relaunched the car sector** in Italy and paved the way for the innovation of the great European brands.

Among the many **prestigious anniversaries of 2020** being celebrated in the pavilions, it is worth mentioning 110 years of Alfa Romeo, 85 years of Jaguar, 60 years of the Lancia Flavia and 50 years of Range Rover.

Also confirmed this year **is the special Galleria 78**: a space dedicated to businesses which have showcased innovation and craftsmanship when refurbishing historic vehicles and super cars.

Auto e Moto d'Epoca is all engines go and it promises an enthusiastic edition, which will **meet the expectations** of enthusiasts and make their wait worthwhile.
