THE COURAGE TO DREAM: STORIES OF PASSION AND VICTORY AT AUTO E MOTO D'EPOCA 2020

Genius, talent and vision changed the history of cars and motorcycles in Italy during the post-war rebirth of this industry: two exceptional exhibitions open the 36th edition of Padua Fair taking place from 22nd to 25th October 2020.

The courage to dream and pursue one's passion for cars is the *fil rouge* of the 2020 edition of Auto e Moto d'Epoca. It is also the theme of two key exhibitions housed at Padua Fair from 22nd to 25th October 2020.

Two exhibitions dedicated to the **courage to change and imagine** the future will tell the stories of the cars and motorbikes created by automotive craftsmen, who made it possible for this industry to thrive in postwar Italy.

The first exhibition entitled "**the ordinary becomes extraordinary**" will be dedicated to the ability to transform common cars into racing giants thanks to the flair of exceptional artisans. The **second** exhibition "**passion becomes victory**" centres around the racing motorcycle house of a great enthusiast who had the courage to challenge and beat the great car manufacturing houses of that time to the finish line.

In both cases, "**transformation**" is the key feature: knowing how to combine manual craftsmanship with the vision of creating something new and never seen before. This skill has always been part of Italy's toolbox and it became a relevant message in the post-epidemic era.

At Auto e Moto d'Epoca, the stories of the artists and dreamers of the past becomes an invitation for the future of the Classic sector and beyond: a chance to **start again**, go back to sharing a common passion or learn about the vintage car and motor sector with trust and interest.

Thanks to thousands of cars, models and enthusiasts, this industry will meet again in Padua from 22nd to 25th October 2020.
