Padua is rich in history and unique artistic and cultural heritage. Great authors, artists and scientists of the past have roamed the streets of its **medieval center**, including the poet Petrarca, artists Giotto, Donatello and Mantegna and scientist Galileo, who taught at Padua university.

There's a lively, yet laid-back vibe in the streets of the city center, which are perfect for stopping for a break and enjoying a spritz, strolling among the palazzos, churches and monuments, and discovering shops and local crafts studios that bring the city to life.

Padua in bite-size pills: many big and small wonders you cannot miss out on.

LA SPECOLA is an imposing 14th century tower which now houses the Astronomical Observatory of Padua University.

PRATO DELLA VALLE, with its statues and trees, is one of the biggest, most impressive squares in Europe.

THE PALAZZO DEL BO is the historic location of the university and is the oldest fixed anatomical theater in the world.

IN THE SCROVEGNI CHAPEL, you'll find a famous cycle of frescos by Giotto, an absolute masterpiece of Western art.

THE SQUARES AND THE PALAZZO DELLA RAGIONE are the beating heart of the city. The palazzos overlooking the squares tell Padua's history and are home to crowded markets and many bars, perfect for sipping on a drink and admiring the beauty of the center.

THE SANTO, which is the basilica dedicated to Saint Anthony from Padua, is visited every year by over 6.5 million pilgrims and it's one of the city's most emblematic buildings.

Padua "urbs picta": discover the works of art of the city which has applied to become the 14th century fresco world capital.

Padua is an urbs picta, a "painted city" which is home to some of the most extraordinary cycles of 14th-century frescoes, and the city has recently applied to join the list of UNESCO World Heritage sites.

Some of the most extraordinary Italian artists have worked in Padua, and thanks to their masterpieces, they have changed the history of art in the world forever.

Among the many artists, there's Giotto, Giusto de' Menabuoi, Altichiero da Zevio, Jacopo da Verona and Guariento, who frescoed some of the most beautiful

buildings of the city, such as the Scrovegni chapel, the Santo basilica, the Duomo's baptistry, the Eremitani church and much more.

Interesting facts and experiences to make your holiday unforgettable.

THE BOTANICAL GARDEN of the University of Padua, UNESCO World Heritage Site, houses the Biodiversity Garden, a magnificent greenhouse with over 1,300

species of plants from all over the world. Next to the 16th century historic garden, it is still possible to admire the famous "Goethe palm tree".

Beneath **PALAZZO DELLA RAGIONE**, between the Piazza delle Erbe and Piazza della Frutta, you find the oldest "shopping mall" in the world, a lively, roofed market which has been

active for 800 years and is always bustling. Here, on the stalls and tables of the wines and food stands, you'll find an abundance of local specialities to either taste or purchase.

The most suggestive **VENETIAN VILLAS** are located along Riviera del Brenta, the water way which connects Padua to Venice. The best way to get to see them

is to take a short cruise on the Burchiello: you'll be able to admire works of art and architecture and reach Venice from the river, just like in the 18th century.
